

## Bridging the Gap from Hospital to Home...

Desert Springs Nursing and Rehabilitation knows that making the decision to place a family member in a nursing and rehabilitation center is one of life's most difficult and emotional challenges. It's often a decision that occurs when the physical, emotional and economic burdens of remaining at home are at their peak.

Our friendly atmosphere and clean environment are designed to encourage social interaction and a real sense of community.

When it becomes apparent that placement is the best answer for all concerned, Desert Springs Nursing and Rehabilitation offers a comforting solution and professional 24-hour care that combines a standard of medical excellence with a traditional sense of caring.

## REHABILITATION

Rehabilitation Therapy is a Strong part of our total care program. The skills of registered physical, occupational, and speech therapists are available as needed to design, monitor, and evaluate individual therapy programs.

Our long-term residents are motivated to improve their functional abilities and enhance their quality of life. For short term residents, therapy helps speed recovery and enable residents to return home to the community.

Specialized rehabilitation programs address functional needs, promotes recovery from conditions including but not limited to:

- Orthopedic Surgery
- Stroke
- Fractures
- Deconditioning
- Joint Replacement

## SOCIAL ACTIVITIES

We Strongly believe that social interactions are key in promoting better health and emotional well being. A well-balanced activities program enriches the nursing home experience for residents.

Our Social worker and activity directors along with our residents, schedule therapeutic and leisure events that cover a wide spectrum of activities from holiday spectaculars to individual room activities. Scheduling a variety of activities gives the residents purpose and enjoyment.

The department is staffed seven days a week including holidays.

## DINING

Our well-trained dietary staff works together with Registered Dieticians to ensure that the food we serve is not only delicious, but nutritionally balanced as well.

We provide various warm and nurturing dining experiences for our residents. We believe that social interactions promote better health and well being and all residents are encouraged to participate in one of our many dining settings.

Families and friends are welcome to dine with residents in a relaxed and private setting. For those who wish a more individualized meal, we offer a variety of "off the menu" items.

In addition to regularly scheduled meal times, we also provide a variety of snacks throughout the day and at bed time.
